

## **POSTINGS AND DISTRIBUTION OF FREE MATERIALS**

Library displays and materials will take precedence over any others.

Depending on available space, the library may allow the posting of materials which provide community information about events and/or services provided. Items that promote programs or projects of a personal or commercial nature may not be distributed in the library. The library will not post or distribute materials relating to particular candidates in a political campaign or proposals prepared by tax supported institutions. Groups allowed to post or distribute may include community organizations, civic clubs, governmental departments, and agencies, as well as cultural, religious, and educational groups.

Those wishing to post or distribute material must ask permission from the library system director or the library employee in charge of their local library service center. Permission may be denied depending on space restrictions and subject of the material. Such items may be retained for as long as they are valid but are cleared on a regular basis. The library system assumes no responsibility for any inappropriate use of posted or distributed information.
